SUPERVISING NURSE

DISTINGUISHING FEATURES OF THE CLASS: This is important work involving responsibility for maintaining high standards of professional nursing services in the management of a department, unit or group of units with special emphasis on the supervision, instruction and coordination of a number of professional and non-professional nursing personnel related to patient and /or resident care. The work is performed under general supervision with wide latitude allowed for instructing, planning and making assignments to subordinates.

TYPICAL WORK ACTIVITIES:

- Supervises the activities of and instructs professional and non-professional subordinates in nursing care practices and techniques in a clinical division or unit;
- Collaborates with medical staff in the assessment, care plan, and treatment of patients and/or residents;
- Obtains and supervises sufficient professional and non-professional staff depending on needs of patients and/or residents;
- Makes scheduled rounds of nursing unit(s) and observes patient and/or resident condition and checks quality of nursing care and treatment;
- Arranges staffing patterns and maintains related records of professional and non-professional nursing services staff on nursing units;
- Coordinates nursing assessment of patients and/or residents and oversees provision of supportive or restorative nursing care;
- Evaluates subordinate staff members and recommends training and/or further orientation;
- Supervises the preparation of and submits descriptive medical, and statistical reports, records and data;
- Instructs and assists the nursing staff and auxiliary nursing personnel of nursing problems, clinical techniques, such as checking physicians orders and chart accuracy;
- Coordinates the services rendered by other departments in the interest of effective management and patient and/or resident welfare;
- Promotes and participates in patient and/or resident education and rehabilitation;
- Performs a variety of personnel management, clinical department or unit management and supply distribution activities related to nursing services;
- Assists in the formulation and execution of nursing services, policies and procedures;
- Promotes and maintains good relationships with patients and /or residents and their relatives and friends;
- Periodically assesses nursing care plans and revises them as needed;
- Orients new personnel and oversees participation in related staff development and in-service training programs;
- Prepares a variety of records and reports;
- Does related work as required.
