

Beautifying the grounds at the Wayne County Nursing Home

We are so happy & pleased that we have had such good support from the community in helping to get the flower beds in shape here at the Wayne County Nursing Home & Rehab Center.

Members of the Newark Club have adopted the Garden Valley Patio gardens. Plamyra's Garden club have adopted the Memorial & Butterfly gardens. The 4 H club God's Helping Hands have adopted the Canal Side Patio Garden. The 4H club is putting in a vegetable garden which will be an intergenerational project with the residents. There have been several individuals including Rita Otterbein, Cathy Kallasky, Shirley Turner and Jim Obine working hard at weeding and mulching all around other areas of the Wayne County Nursing Home and Rehab Center. The residents, family, staff and friends will have many enjoyable hours sitting outside the facility viewing the beautiful flowers and watching the vegetables grow, anticipating the harvest. We're hoping we might have some good quality vegetables to enter into the Wayne County Fair this year.
